

**Physical Education Curriculum Analysis Tool (PECAT) Workshop**

**Friday May 2<sup>nd</sup>, 2008**

**9:00 a.m. – 3:00 p.m.**

**Castleton State College, Chapel**

**Cost: \$24.00 per person**

The PECAT is designed to help schools conduct a complete analysis of written physical education curricula, based upon national standards. Results from the analysis will help schools enhance existing curricula or develop new curricula for the delivery of quality physical education. Furthermore, this process of curriculum analysis is a very effective way to advocate for, and strengthen the connection between physical education and the broader educational community. Attendees will distinguish between different components of the PECAT and begin curriculum analysis. Participants are encouraged to attend this workshop as a team. Team members might include physical educators, health educators, school administrators, school health personnel, curriculum coordinators, other content specialists with background in curriculum design, community members, parents and/or students. Contact Lindsay Simpson, Physical Education Consultant for more information at [lindsay.simpson@state.vt.us](mailto:lindsay.simpson@state.vt.us) or (802) 828-1461.

**Register:** Use the Web link below to register for this workshop:
